

Write a query to display the unique user name and their city who have booked their tickets not by using the 'HDFC' bank for any of the bookings. Sort the result based on the user name.
(Note: Evaluate only the respective query to get the desired result. Data is case sensitive.
Ex:

Assume there are few records in User & Booking Table

User_id	name	address	Phoneno	email
1001	Adam	Chennai	8988998991	ada@gmail.com
1002	Eve	Mangalore	1234567890	eva@yahoo.com
1003	John	Mumbai	9087654321	Jo@gmail.com
1004	Peter	Hyderabad	7867545343	Peter@yahoo.co.in

BOOKING

BD_ID	ACCNO	NAME	USER_Id
B1	12312324	HDFC	1001
B2	23444434	SBI	1001
B3	54556444	IOB	1002
B4	45434234	BOI	1003

SAMPLE OUTPUT:

NAME	CITY
EVE	Mangalore
JOHN	Mumbai
